

1. Which of the following is not a type of microorganism?

- A. Bacteria
- B. Fungi
- C. Viruses
- D. Algae

C. Viruses

2. Which of the following is not a type of nucleic acid?

- A. Deoxyribonucleic acid
- B. Ribonucleic acid
- C. Amino acids
- D. Peptides

C. Amino acids

3. Which of the following is not a type of cell?

- A. Eukaryotic
- B. Prokaryotic
- C. Animal
- D. Plant

C. Animal

4. Which of the following is not a type of cell wall?

- A. Gram-positive
- B. Gram-negative
- C. Peptidoglycan
- D. Chitin

C. Peptidoglycan

5. Which of the following is not a type of cell membrane?

- A. Cytoplasmic
- B. Nuclear
- C. Plasma
- D. Cellulose

D. Cellulose
