

1. What is the first step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

2. What is the second step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

3. What is the third step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

4. What is the fourth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

5. What is the fifth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

6. What is the sixth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

7. What is the seventh step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

8. What is the eighth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

9. What is the ninth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

10. What is the tenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

11. What is the eleventh step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

12. What is the twelfth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

13. What is the thirteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

14. What is the fourteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

15. What is the fifteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

16. What is the sixteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

17. What is the seventeenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre

- C. Choose the game platform
- D. Choose the game story

18. What is the eighteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

19. What is the nineteenth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

20. What is the twentieth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

21. What is the twenty-first step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

22. What is the twenty-second step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

23. What is the twenty-third step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

24. What is the twenty-fourth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story

25. What is the twenty-fifth step in programming a video game?

- A. Choose the game engine
- B. Choose the game genre
- C. Choose the game platform
- D. Choose the game story
