

1. What is the name for the process of adding oxygen to a substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
2. What is the name for the process of removing oxygen from a substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
3. What is the name for the process of combining a substance with oxygen?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
4. What is the name for the process of breaking down a substance by burning it?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
5. What is the name for the process of adding electrons to a substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
6. What is the name for the process of removing electrons from a substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
7. What is the name for the process of combining a substance with another substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
8. What is the name for the process of breaking down a substance by heating it?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
9. What is the name for the process of adding oxygen to a substance?
 - A. Reduction
 - B. Oxidation
 - C. Combustion
10. What is the name for the process of removing oxygen from a substance?
 - A. Reduction
 - B. Oxidation

C. Combustion

11. What is the name for the process of combining a substance with oxygen?

- A. Reduction
- B. Oxidation
- C. Combustion

12. What is the name for the process of breaking down a substance by burning it?

- A. Reduction
- B. Oxidation
- C. Combustion

13. What is the name for the process of adding electrons to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

14. What is the name for the process of removing electrons from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

15. What is the name for the process of combining a substance with another substance?

- A. Reduction
- B. Oxidation
- C. Combustion

16. What is the name for the process of breaking down a substance by heating it?

- A. Reduction
- B. Oxidation
- C. Combustion

17. What is the name for the process of adding oxygen to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

18. What is the name for the process of removing oxygen from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

19. What is the name for the process of combining a substance with oxygen?

- A. Reduction
- B. Oxidation
- C. Combustion

20. What is the name for the process of breaking down a substance by burning it?

- A. Reduction
- B. Oxidation
- C. Combustion

21. What is the name for the process of adding electrons to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

22. What is the name for the process of removing electrons from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

23. What is the name for the process of combining a substance with another substance?

- A. Reduction
- B. Oxidation
- C. Combustion

24. What is the name for the process of breaking down a substance by heating it?

- A. Reduction
- B. Oxidation
- C. Combustion

25. What is the name for the process of adding oxygen to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

26. What is the name for the process of removing oxygen from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

27. What is the name for the process of combining a substance with oxygen?

- A. Reduction
- B. Oxidation
- C. Combustion

28. What is the name for the process of breaking down a substance by burning it?

- A. Reduction
- B. Oxidation
- C. Combustion

29. What is the name for the process of adding electrons to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

30. What is the name for the process of removing electrons from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

31. What is the name for the process of combining a substance with another substance?

- A. Reduction
- B. Oxidation
- C. Combustion

32. What is the name for the process of breaking down a substance by heating it?

- A. Reduction
- B. Oxidation
- C. Combustion

33. What is the name for the process of adding oxygen to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

34. What is the name for the process of removing oxygen from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

35. What is the name for the process of combining a substance with oxygen?

- A. Reduction
- B. Oxidation
- C. Combustion

36. What is the name for the process of breaking down a substance by burning it?

- A. Reduction
- B. Oxidation
- C. Combustion

37. What is the name for the process of adding electrons to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

38. What is the name for the process of removing electrons from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

39. What is the name for the process of combining a substance with another substance?

- A. Reduction
- B. Oxidation

C. Combustion

40. What is the name for the process of breaking down a substance by heating it?

- A. Reduction
- B. Oxidation
- C. Combustion

41. What is the name for the process of adding oxygen to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

42. What is the name for the process of removing oxygen from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

43. What is the name for the process of combining a substance with oxygen?

- A. Reduction
- B. Oxidation
- C. Combustion

44. What is the name for the process of breaking down a substance by burning it?

- A. Reduction
- B. Oxidation
- C. Combustion

45. What is the name for the process of adding electrons to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

46. What is the name for the process of removing electrons from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

47. What is the name for the process of combining a substance with another substance?

- A. Reduction
- B. Oxidation
- C. Combustion

48. What is the name for the process of breaking down a substance by heating it?

- A. Reduction
- B. Oxidation
- C. Combustion

49. What is the name for the process of adding oxygen to a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

50. What is the name for the process of removing oxygen from a substance?

- A. Reduction
- B. Oxidation
- C. Combustion

Answer Key:

- 1. B
- 2. A
- 3. C
- 4. C
- 5. A
- 6. B
- 7. C
- 8. C
- 9. B
- 10. A
- 11. C
- 12. C
- 13. A
- 14. B
- 15. C
- 16. C
- 17. B
- 18. A
- 19. C
- 20. C
- 21. A
- 22. B
- 23. C
- 24. C
- 25. B
- 26. A
- 27. C
- 28. C
- 29. A
- 30. B
- 31. C
- 32. C
- 33. B
- 34. A
- 35. C
- 36. C
- 37. A
- 38. B
- 39. C
- 40. C
- 41. B
- 42. A
- 43. C
- 44. C
- 45. A
- 46. B

47. C
48. C
49. B
50. A
