

1. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

2. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

3. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

4. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

5. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

6. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

7. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

8. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

9. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

10. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

11. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

12. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

13. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

14. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

15. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

16. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

17. What is the main source of variation in a population?

- A. Mutation
- B. Recombination

- C. Selection
- D. Drift

18. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

19. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

20. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

21. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

22. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

23. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

24. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

25. What is the main source of variation in a population?

- A. Mutation
- B. Recombination
- C. Selection
- D. Drift

1. D
2. A
3. B
4. C
5. D
6. A
7. B
8. C
9. D
10. A
11. B
12. C
13. D
14. A
15. B
16. C
17. D
18. A
19. B
20. C
21. D
22. A
23. B
24. C
25. D
