

1. How do you use computer systems and networks?
 - a. For communication
 - b. For data storage
 - c. For processing
 - d. For all of the above
2. How do you connect to a computer network?
 - a. With a modem
 - b. With a router
 - c. With a switch
 - d. With a computer
3. How do you access data on a computer network?
 - a. With a web browser
 - b. With an email client
 - c. With a file transfer protocol
 - d. With a word processor
4. How do you protect data on a computer network?
 - a. With a firewall
 - b. With encryption
 - c. With a password
 - d. With a user name
5. How do you share data on a computer network?
 - a. With a server
 - b. With a client
 - c. With a workstation
 - d. With a mainframe
6. How do you use computer networks for communication?
 - a. With a chat client
 - b. With a VoIP client
 - c. With a video conferencing client

- d. With an instant messaging client
7. How do you use computer networks for data storage?
- a. With a file server
 - b. With a print server
 - c. With a web server
 - d. With an application server
8. How do you use computer networks for processing?
- a. With a grid computing system
 - b. With a cloud computing system
 - c. With a parallel computing system
 - d. With a distributed computing system
9. How do you connect to a computer network?
- a. With a modem
 - b. With a router
 - c. With a switch
 - d. With a computer
10. How do you access data on a computer network?
- a. With a web browser
 - b. With an email client
 - c. With a file transfer protocol
 - d. With a word processor
11. How do you protect data on a computer network?
- a. With a firewall
 - b. With encryption
 - c. With a password
 - d. With a user name
12. How do you share data on a computer network?
- a. With a server
 - b. With a client

c. With a workstation

d. With a mainframe

13. How do you use computer networks for communication?

a. With a chat client

b. With a VoIP client

c. With a video conferencing client

d. With an instant messaging client

14. How do you use computer networks for data storage?

a. With a file server

b. With a print server

c. With a web server

d. With an application server

15. How do you use computer networks for processing?

a. With a grid computing system

b. With a cloud computing system

c. With a parallel computing system

d. With a distributed computing system

Answer Key: 1. d, 2. b, 3. a, 4. b, 5. a, 6. b, 7. a, 8. b, 9. c, 10. d, 11. a, 12. b, 13. c, 14. d, 15. b
