

1. What is the name of the process that occurs when a liquid changes to a gas?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
2. What is the name of the process that occurs when a gas changes to a liquid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
3. What is the name of the process that occurs when a solid changes to a liquid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
4. What is the name of the process that occurs when a liquid changes to a solid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
5. What is the name of the process that occurs when a solid changes to a gas?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
6. What is the name of the process that occurs when a gas changes to a solid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Freezing
7. What is the name of the process that occurs when two or more different liquids are combined to form a new liquid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Solution
8. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?
 - A. Evaporation
 - B. Condensation
 - C. Melting
 - D. Solution

9. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

10. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

11. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

12. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

13. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

14. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

15. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

16. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

17. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

18. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

19. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

20. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

21. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

22. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

23. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

- A. Evaporation
- B. Condensation

- C. Melting
- D. Solution

24. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

25. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

- A. Evaporation
- B. Condensation
- C. Melting
- D. Solution

1. What is the name of the process that occurs when a liquid changes to a gas?

- A. Evaporation

2. What is the name of the process that occurs when a gas changes to a liquid?

- B. Condensation

3. What is the name of the process that occurs when a solid changes to a liquid?

- C. Melting

4. What is the name of the process that occurs when a liquid changes to a solid?

- D. Freezing

5. What is the name of the process that occurs when a solid changes to a gas?

- A. Evaporation

6. What is the name of the process that occurs when a gas changes to a solid?

- B. Condensation

7. What is the name of the process that occurs when two or more different liquids are combined to form a new liquid?

- D. Solution

8. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?

- D. Solution

9. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

- D. Solution

10. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

D. Solution

11. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

D. Solution

12. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

D. Solution

13. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

D. Solution

14. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

D. Solution

15. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?

D. Solution

16. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

D. Solution

17. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

D. Solution

18. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

D. Solution

19. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

D. Solution

20. What is the name of the process that occurs when a gas is added to a solid to form a new solid?

D. Solution

21. What is the name of the process that occurs when a liquid is added to a solid to form a new solid?

D. Solution

22. What is the name of the process that occurs when a gas is added to a liquid to form a new liquid?

D. Solution

23. What is the name of the process that occurs when a solid is added to a gas to form a new solid?

D. Solution

24. What is the name of the process that occurs when a liquid is added to a gas to form a new gas?

D. Solution

25. What is the name of the process that occurs when a solid is added to a liquid to form a new liquid?

D. Solution
